APE Consultancy

Vision

To improve value for our customers by providing practical training and consultancy services.

Mission

To be the preferred partner for your management excellence.

Profile

APE Consultancy was established in Dubai to respond to the needs of high performance organizations to optimize and streamline their processes. The founders are well known in the field of process re-orientation and optimization. They bring more than a cumulative 50 years of experience in management systems development, auditing and training.

Services

- ┆ Management systems establishment based on international standards (ISO9001, ISO14001, OHSAS18001, ISO22000, ISO27001, ...)
- ┆ Process mapping.
- ┆ Process automation.
- ┆ Process re-engineering.
- ┆ Process auditing.
- ┆ HR Systems (employee handbook, recruitment, job descriptions, performance appraisal, salary scales,...)
- ┆ Training: we offer a wide range of general and customized training to ensure your delegates the maximum benefits. Subjects include: general management, project management, auditing skills, sales, finance among others.

We cover a wide range of sectors with extensive experience in Government, oil and gas, education, manufacturing and service oriented organizations.

In addition to the above, we exclusively represent in the UAE an international tool that will:

- ┆ Provide you with performance measurement and reporting.
- ┆ With complete and transparent integration to the Company's system.
- ┆ Is intuitive and easy to use thanks to its graphic interface.
